School Counselor Letter of Recommendation – Jade Veth

The immediate words that I would choose to describe Jade Veth are self-determined, organized and motivated. I have worked with Jade as her school counselor since 9th grade. Academically, Jade works hard to give her best effort to all that she does, and beyond the classroom she has sought many opportunities to demonstrate her leadership skills in many clubs and activities. Her efforts are noteworthy.

Academically, Jade is motivated by her desire to do her best. She believes in working hard and giving her best effort in all that she does. She has done well in a rigorous program of studies comprised of courses primarily at the honors and Advanced Placement levels. One of Jade's favorite classes has been AP Physics 2. I am not surprised as Jade has expressed an interest in studying engineering management, or some combination of engineering and business, at the post-secondary level. She has worked as an administrative assistant at Landmark Unlimited Reality, which has sparked her interest in these fields. Her junior year precalculus teacher notes "Jade brings her bubbly personality and her smile to class everyday. She has an ability to understand complex concepts and shares her knowledge with her classmates. She has drive and perseverance." Jade is deeply invested in her Vietnamese and Cambodian heritage, and is eager to learn about other languages and cultures. Accordingly, she has loved her Spanish classes over the years.

Beyond the classroom, Jade has been an involved member of both the Sharon and greater Sharon communities. She is a valued member of the Sharon High School varsity volleyball team. She has played the sport both at the high school and extracurricular levels. She has also been a member of the SHS track team. Along with several clubs at school, including Operation Smile, Jade also gives back to the community and volunteers with elementary students as part of the Sharon Community Education program, and also as a Cambodian martial arts instructor.

Given Jade Veth's discipline and focus, along with her demonstrated critical thinking skills, I have no doubt that she will make an immediate impact at the university level. She has clearly and articulately stated her goal of studying engineering, along with business, and she is eager to immerse herself in the subject. Jade's excellent analytical and interpersonal skills will suite her well in the future. I offer Jade Veth my strongest, most enthusiastic recommendation as an applicant for admission.

Sincerely,

Jacqueline Kaye
School Counselor
